

# OUR CAPABILITY AIRPORTS

BMD has worked on airports from as far as Perth to Sydney and Townsville to Whyalla. With in-house capability to self-perform works, BMD delivers detailed scheduling, planning, resourcing and execution of critical activities, as well as early identification and mitigation of associated risks.

## WHAT SETS US APART FROM THE REST?

### CONSTRUCTION IN LIVE, HIGH SECURITY ENVIRONMENTS

- Diligent project teams with a thorough understanding of airport infrastructure, security protocols and compliance are supported by BMD's robust management systems to ensure a seamless security interface amidst a fully operational airport.
- Significant investment in plant and equipment to self-perform all associated works in airside and landside infrastructure projects including forming, concreting, paving, curing, saw-cutting and jointing.
- An in-depth understanding of the scope and methodologies of constructing in a time critical environment, with operational expertise in establishing and maintaining site perimeters, ingress and egress to airside sites via secure gates without incident, and vehicular and driver approvals and licences for operating within airports.

### RELATIONSHIPS, COLLABORATION AND OUTCOMES FOCUSED

- Established genuine relationships with clients and partners, which has led to repeat business as a trusted provider in the airport sector.
- Collaborative approach to all projects with experience in private and defence air bases, while working within our clients' systems to maintain a security interface to ensure zero unplanned interruptions to airside operations.
- Experience in successfully developing safety improvement plans and a strong reputation for proactively managing risks and challenges, such as restrictions to plant operating times and space constraints, collaboratively with clients and environmental agencies to ensure industry best practice and legislative requirements are met.

### SUSTAINABILITY IN THE MARKET

- Flexibility of a large Australian owned private company with the ability to self-perform projects and an in-depth understanding of the scope and methodologies required to deliver airside and landside airport infrastructure projects.
- BMD's performance has been acknowledged through multiple industry awards for construction, HSEQ management and staff excellence.

## THE BMD WAY

BMD's specialist expertise in airside and landside works within live, operational, high security environments, project delivery experience in private and defence air bases, and innovative design and construct solutions is what sets us apart. As BMD continues to grow and expand, our culture and relationship-based approach to projects and collaborating with our partners to deliver sustainable outcomes, has seen us receive continuous support from our loyal client base. What makes BMD different is our value system, unique culture and general commitment to all staff, with a strong belief that 'our business is our people'.

## FINANCIAL PERFORMANCE

Since establishment in 1979, BMD has enjoyed strong growth, and now consistently exceeds \$1 billion annual revenue.

BMD is supported by stringent management systems, a strong balance sheet and prudent financial management.

## ZERO HARM

The safety of our people, the environment and community are BMD's highest priority. BMD holds industry-recognised multi-site certifications for health, safety, environment and quality management systems, as part of our integrated Business Management System. We are committed to an uncompromised safety culture and strive to achieve our Zero Harm goal.

# KEY PROJECTS AIRPORTS

Delivering airside and landside projects from Brisbane to Busseton to Darwin and everywhere in between.

## QUEENSLAND

### BRISBANE AIRPORT, NEW PARALLEL RUNWAY

\$400 million | Brisbane Airport Corporation (BAC)

- ★ 2014: Winner of the Environmental Award at the 2014 QLD Engineers Australia Excellence Awards in a joint submission with BAC.

### RAAF BASE AMBERLEY

\$60 million | CPB Contractors Pty Ltd

“ BMD has delivered airport projects for Brisbane Airport Corporation for over a decade, demonstrating a genuine commitment to safety, quality, environment and overall project performance. BMD’s strength of relationship with Brisbane Airport Corporation combined with airport environment experience, has allowed for the successful mitigation and planning for any potential project issues. Brisbane Airport Corporation acknowledges BMD’s professionalism and looks forward to maintaining a close working relationship that continues to meet expectations and provide mutual outcomes for all involved. ”

\$15 million | City of Greater Bendigo

- ★ 2017: Airport of the Year – Small Regional Aerodrome, National Airport Industry Awards
- ★ 2017: Civil Contractors Federation Earth Award (state level)

“ City of Greater Bendigo has been impressed with the highly effective and collaborative BMD team from the beginning of the Bendigo Airport Stage 2 project. BMD started this project with the aim of delivering a quality product for the region and we have been very happy with their work. They have understood and embraced the challenges that come with working in an airside environment and have delivered on their commitment of not significantly impacting airport operations. ”
